

INFORMATION ABOUT THE SERVICE

Your Boost Prepaid Mobile service gives you access to the 3G and 4G parts of the Telstra Mobile Network to make and receive calls and texts, as well as use mobile data. Telstra will be switching off 3G in 2024. After switch off you will still be able to access the Telstra Mobile Network provided your handset is 4G voice enabled and 4G 700MHz compatible. Find out more: tel.st/goodbye3G

HANDSET PACK OR PREPAID SIM OPTIONS

You'll need to purchase a Boost Handset Pack or a Boost Prepaid SIM to take up the Boost Anytime Ultra offer. We update our handsets frequently, so visit boost.com.au for the latest range of handsets and pricing. If you purchase a Boost Prepaid SIM you'll need to have an 850MHz compatible handset for 3G access and LTE band 3 (1800MHz) and band 28 (700MHz) for 4G access. To check if your handset is compatible visit telstra.com/device.

PREPAID MOBILE RECHARGE OPTIONS

Some Boost SIMs come preloaded with credit. If your SIM doesn't include credit, simply activate your SIM and then recharge the amount that's right for you on Boost Anytime Ultra.

WHAT'S INCLUDED

When you recharge, you'll get inclusions to use on calls, text and data. These

inclusions depend on your Prepaid mobile offer and your recharge, so check out what's included before you recharge.

WHAT'S NOT

Your inclusions can't be used for some things like calls and text to international numbers satellite and premium numbers (eg. 19xx numbers), operator assisted calls (most 12xx numbers), content charges, data roaming and MMS while overseas. You can purchase an Add-On to access some of these features, see below.

WHAT'S CHANGING FROM 6 OCTOBER 2020

From 6 October 2020, international roaming will no longer be available on your Boost Mobile service, and Add-ons will not have roaming inclusions. A new version of international roaming will launch in mid-2021.
